

Individually designed vanities

Schlüter®-KERDI-BOARD-W

Simply individual design

Schlüter®-KERDI-BOARD-W

- ✓ Prefabricated washbasin/vanity unit element made of KERDI-BOARD
- ✓ Set includes waterproofing components
- ✓ Ready for tiling
- ✓ Lightweight – easy handling
- ✓ Individually customisable
- ✓ 1¼" connection thread to fit standard bottle traps
- ✓ Use with KERDI-LINE-VARIO profiles
- ✓ Floating installation possible in conjunction with wall fixing brackets

Schlüter-KERDI-BOARD-W offers an easy way to create individually designed washbasin/vanity units with tile coverings. As a prerequisite, taps must be installed on the wall and not on the washbasin/vanity unit.

Set includes:

- a prefabricated element in the dimensions 1170 x 82 x 520 mm, with a sloped sink,
- a drain adapter with connection thread to fit commercially available traps and integrated KERDI waterproofing collar,
- KERDI-KERS prefabricated pieces for secure waterproofing,
- a cartridge of KERDI-FIX installation adhesive.

The placement of the washbasin/vanity unit can be freely chosen: You can install KERDI-BOARD-W in niches or wall corners, but the element can also be placed on support stands made of 50 mm KERDI BOARD on one or both sides. This brochure offers a number of design ideas. Of course, you can also create a floating installation with optionally available wall fixing brackets to accommodate wheelchair use. You can find the KERDI-LINE-VARIO drainage profiles to match the covering of the vanity unit in our KERDI-LINE-VARIO product range. They can be variably cut to size, are height adjustable and feature two matching end caps. These profiles, as well as the optional wall fixing brackets, must be ordered separately.

A sturdy assembly

Support stands made of KERDI-BOARD create an especially sturdy structure for optimum durability. The drawings and images below offer a few design ideas.

Making design ideas a reality

Our daily routine typically begins and ends in the bathroom. A pleasant atmosphere with harmonious design is the best way to experience the start and end of the day.. You can now easily and securely integrate a KERDI-BOARD washbasin/vanity unit into bathroom designs with uniform tile covering.

The unique bathroom appearance can be further enhanced with additional KERDI-BOARD elements such as shelves or partition walls. Floating vanity design can help reduce access barriers in the bathroom.
